

**- Specification Sheet -****GROWER 0-29-26**

**GROWER 0-29-26** is a highly-concentrated fertilizer (Phosphorus-Potassium) containing mono and di- potassium salts of phosphorous acid. **GROWER 0-29-26** is a clear totally water soluble solution which is immediately absorbed by the plant tissues of the leaves and the root.

**PROPERTIES AND USES:**

- Is absorbed much faster in comparison to phosphate fertilizers covering more efficiently the needs in phosphorus and potassium.
- Releases gradually the phosphorus during the various growth stages of the crop.
- Promotes the growth of the plant and the root.
- Contributes in the achievement of high yields and improved crop quality.
- Improves the physical condition of the plants.
- Increases the plant resistance against adverse conditions caused by environmental and other factors.
- It is environmentally friendly (it is less toxic than an aspirin for the environment).

**APPLICATION:**

**GROWER 0-29-26** is applied foliarly and by fertigation.

Application Rate: Generally it is applied at the following application rate.

*Foliar application:* 2-5 l/ha.

*Soil application:* 2-5 l/ha.

**STANDARD ANALYSIS**

	(w/w)	(w/v)
Phosphorus (P <sub>2</sub> O <sub>5</sub> )	29.00%	43.50%
Potassium (K <sub>2</sub> O)	26.42%	39.00%

**PHYSICAL PROPERTIES:**

Appearance:	Clear liquid
Specific gravity (25°C):	1.41-1.45 g/ml
Solubility:	100% water soluble
pH (25°C):	7.6
