

- Specification Sheet -**GROWER 0-0-27**

GROWER 0-0-27 is a fertilizer with a high percentage in Potassium which derives from Carbonate Potassium and because of that it has a very low salt index.

PROPERTIES AND USES:

- Increases the root growth and improves their resistance against drought.
- Fortifies photosynthesis and the creation of food.
- Assists in the transportation of sugars and starch.
- Increases the protein content of plants.
- Helps the water uptake by the plant.
- Activates the leaf stomata for the proper exchange of CO₂, oxygen and humidity.
- Improves the fruit development and maturity.
- Increases the fruit shelf life.

APPLICATION:

GROWER 0-0-27 is applied foliarly and by fertigation.

Application Rate: Generally it is applied at the following application rate.

Foliar application: 5-15 l/ha (Container of 4 l in 500-800 l of water).

Soil application: 5-20 l/ha
