Organic-Mineral Granular Fertilizer

# Food 4 Plants

## TYPICAL ANALYSIS

Nitrogen .....	7,4 %
Ammonium .....	5,5 %
Organic .....	1,9 %
Phosphorous ( $P_2O_5$ ) .....	5,0 %
Potassium ( $K_2O$ ) .....	12,2 %
Calcium (CaO) .....	6,1 %
Magnesium (MgO) .....	3,7 %
Sulphur (S) .....	6,4 %
Organic Carbon .....	17,0 %
Organic matter .....	34,0 %
Amino acids-Proteins .....	12,0 %
Humic acids .....	7,0 %
Moisture .....	7,0 %
C/N .....	2,3

## PROPERTIES

- It contains gradually released nutrients
- It is fully absorbed by the plants
- It has enhanced action due to the high quality organic matter
- It is enriched with free Amino acids, Proteins and Humic acids

## APPLICATION METHOD

Scatter the fertilizer on the soil around the trunk and then delve into the soil lightly until the fertilizer be fully incorporated in the soil. It is good the application to be followed by watering of the soil.

## APPLICATION RATES

Young trees: 250-750 g per tree 1-2 times in the year  
Adult trees: 2-4 kg per tree 1-2 times in the year  
Vineyard: 250-350 g per vine 1-2 times in the year

## STORAGE CONDITIONS

It must be stored in tightly closed containers at room temperature, in dry place without moisture, protected from rain, ice and high temperatures.

Do not dispose of empty containers in the environment.
